- impossible to comply with the applicable approved plan.
SECTIO 10. Sale of Transfer of Ownership of Real Property Upon Which a Well is Located:

shall contain the information as required in N.J.A.S. 5:19A-5.61:24A-30.0. Said submission
shall be accompanied by a certificate of the ocean county health department certifying that
the well is not subject to the Ocean County Health Department's swimming pool
regulations. The laboratory collecting the sample shall determine if the results of the analysis
required by the ocean county health department are in compliance with the New Jersey
department of Environmental Protection's standards for swimming pools. The results
shall be submitted to the department of Environmental Protection for the purpose of
determining compliance with the New Jersey department of Environmental Protection's
standards for swimming pools.

SEC. 9. Individual Wells: Submittion of Water Analysis Data:

A. The ocean county health department shall collect, record, and maintain the water
samples collected from a well.

B. All water samples shall be collected, tested, and analyzed in accordance with
the New Jersey Department of Environmental Protection's standards for swimming pools.

C. In the event that the laboratory fails to complete the water sample collected from a well
in 30 days from the date of submission, the ocean county health department shall report
the failure to the New Jersey Department of Environmental Protection.

For potable water supplies, the recommended upper limits and optimal ranges for pH
are as follows:

The parameters listed above, each water sample shall be tested for:

The parameters listed above, each water sample shall be tested for:

For potable water supplies, the recommended upper limits and optimal ranges for pH
are as follows:
